

Install Mulish Font Windows and Mac OS

The following guide details the process for installing the Mulish Font on Windows and Mac OS device.

Note: If you have previously installed the Mulish Font, please uninstall the font before continuing ([guide here](#)).

Windows

1. Navigate to the **TIGS Portal** (Staff Tab) and select **Software -> School Font**.
2. Download the **School Font** (ZIP file).
3. Open the ZIP file and then open the first **Mulish** font file.

4. Click the **Install** button.

5. Complete the same process (steps 3 and 4) for the remaining three files.

MacOS

1. Navigate to the **TIGS Portal** (Staff Tab) and select **Software -> School Font**.
2. Download the **School Font** (ZIP file).
3. Open the ZIP file and then open the first **Mulish** font file.

4. Click the **Install** button.

6. Complete the same process (steps 3 and 4) for the remaining three files.
